

Interested in learning more to promote safe sleep for babies, thus saving lives?

The Community Action Network can provide **free virtual group education** for you or your organization and give you a toolkit with resources you can share with others. We also have an assessment tool that can be used for screening and education to provide information to individuals or families.

Contact us to learn more about how to access our pre-recorded sessions or if you would like for us to provide education to an already established group.
