

## Snowy Scene

### You will need:

Large glass vase/container

Hot glue

Container that fits inside glass vase

Small holiday village house

Craft snow

Craft snow texture paint & applicator (we recommend something small, like a swab)

Spray paint

Embellishments as desired (like a tree or figure)

### Instructions:

1. Remove any embellishments, like ribbons or twine, from the glass container.
2. Using the hot glue, attach the small container to the bottom of the glass interior.
3. Spray-paint the village house and let dry completely.
4. Once the house is dry, add snow texture paint as desired and let dry.
5. Using the hot glue, attach the base of the house to the top of the container inside the glass.
6. Add craft snow to completely cover the container the house sits on.
7. Using snow texture paint, embellish the outside of the glass as desired to create a snowy effect.

EveryStep Giving Tree has a large selection of glass vases and containers like the one we used. The store also currently has a wide variety of miniature village houses. We bought both pieces at EveryStep Giving Tree for a total of \$3.99.
